MS Word

Jupyter

## PERSONAL PROJECTS

### Bank Management System (Python)

- In this project, the Bank management System Python Project, the user can create an account by entering information such as his or her username, opening balance, and pin number. The user must then submit those data in order to gain access to their account.

### Performing EDA on Zomato Dataset

- In this project, I am working on Zomato Dataset Performing exploratory data analysis helps to find some insights from the data, what pattern it might be following, what are anomalies and outliers in the data, finding correlation between two variables, including last-mile delivery of food orders, allocation of delivery partners, estimation of time for restaurants to prepare food, grooming of delivery partners, etc.

### Music Recommendation Based on Face Emotion Recognition

- It is ML based project
- In this we can detect face and their expression
- This project is written in python language with the help of libraries

## CERTIFICATES

Python 3 star by hacker rank

Python by Cetpa

Python for Data Science by IBM

## EXTRA CURRICULAR ACTIVITIES

Volleyball Player at State Level

Badminton player at zonal level

## LANGUAGES

English

Professional Working Proficiency

Hindi

Native or Bilingual Proficiency
